# Press Release

## "When Digital Meets Flexo" - The future is here.

OMET Americas Inc. is hosting 2 days of innovation on May 22 and 23, 2019 in Elk Grove Village, IL. They will be making an exciting, industry advancing announcement which will be revealed in their next email.

Two live demos are planned for 11:30am and 2:30pm on both days of the open house. Midwest Sales Manager, Chris Baldwin will be leading the presentation prior to each demo. The experts from each of the partners will be present to answer all questions following the demo. Along with seeing the industry changing technology guests attending the event will also enjoy a catered lunch, snacks, networking, and games.

If you are a partner or customer interested in attending please click the [RSVP](#) to confirm your attendance.

OMET's planned success for this open house is to be shared with the following partners who are participating in the event: Apex, Avery Dennison, Durst, GEW, Grafikontrol, Flexografix, Flexowash, Kocher + Beck, Nazdar, Rossini, Rotometrics, Tesa, Tresu, and Vetaphone.

Please contact [sales@ometamericasinc.com](mailto:sales@ometamericasinc.com) for more information.

About the OMET Group:

OMET Group, with its companies OMET SRL, O-PAC and subsidiaries in China, Spain, United States and Czech Republic, is one of the most important and dynamic industrial organizations in Lombardy, northern Italy. The group employs global wide 600 people.

OMET SRL, founded in Lecco in 1963, is organized in 3 business units: Packaging Printing Machines (narrow and mid web printing machines), Tissue converting (machines for the production of napkins, paper towels and table mats) and Systems in Motion (production of special and standard ball bearings, trolleys, handling systems).

O-Pac, founded in 1989, works in partnership with leading brands in the cosmetic, pharmacy and distribution industries for the design and the production of wet-wipes for any purpose, as well as innovative solutions like gloves, pads and sheet masks. In 2014 O-PAC acquired NCT – New Cosmetic Technology, designing, creating and packaging derma-cosmetic products for OEM. NCT is specialized in the production of tailor-made items for face-body-hair treatment, babies hygiene and daily care, sun protection, oral care, 100% natural and organic lotions, sludge and thermal products. In February 2016 O-PAC signed a joint venture with Wet-Wipes international, located in Prague, Czech Republic, for production and sales of wet wipes with a strong presence in German and Balkan markets.
